ECLIPSES for the Year 1774.

THERE will be two Eclipſes this Year, and both of the Sun.

The firſt will be the 12th of March, at 5h. 10m. in the morning, inviſible; by a ſpherical projection, and calculation, I find the ſun will be centrally eclipſed, on the meridian, in lat. 1, 45, ſouth, and longitude 30, 40, eaſt of Greenwich, near Zaſtan, in Macoko in Africa.

The ſecond will be the 5th of September, at 9h. 14m afternoon, inviſible; and, from a like calculation with the foregoing, I find the ſun will be centrally eclipſed on the meridian, in the Eaſtern Ocean, in latitude 9, north and longitude 150, eaſt of Greenwich.
